RESEARCH INTERESTS

My research goal is discovering what kind of linguistic information is used by LLMs to carry out a specific task.

Major Interests: Explainability. Bertology, Low-resources languages
Other Interests: Multilinguality, Linguistic continuum

EDUCATION

Present Sept 2021	University of Pisa, PISA, Italy **MSc in Language Technologies** Major: NLP, Computational Linguistics
Apr 2021 Sept 2017	University of Pavia, PAVIA, Italy **Bachelor of Arts ("Lettere Moderne")** Major: Linguistics Thesis: "Sociolinguistics of the Italian colonial context: interlingua and lexical borrowings in Amharic" | Advisor: Ilaria Fiorentini

PUBLICATIONS

2023 Salogni Ilaria *"Salogni at GeoLingIt: Geolocalization by Fine-tuning BERT" (Accepted for Publication)* [PDF]

RELEVANT COURSEWORK

Computer Science: Programming (Python), Data Structures and Algorithms, Data Analysis
Learning: Machine Learning, Human Language Technologies, Artificial Intelligence
Linguistics: Applied Linguistics, Psicolinguistics, Computational Linguistics (I and II), Sociolinguistics, Glottology, Philology

SKILLS

Programming Languages: Python, R
              SW/ Tools: Git, LaTeX
          ML Libraries: TensorFlow, PyTorch, Keras, NumPy, Pandas, Scikit Learn
